

IFluidSimulation

```
graph BT; FluidSimulation --> IFluidSimulation
```

The diagram illustrates an inheritance relationship. A light gray box labeled 'FluidSimulation' is positioned at the bottom, and a white box labeled 'IFluidSimulation' is positioned at the top. A solid blue arrow points vertically from the top of the 'FluidSimulation' box to the bottom of the 'IFluidSimulation' box, indicating that 'FluidSimulation' inherits from 'IFluidSimulation'.
